RESPONSE TO RESTRICTION REQUIREMENT

This is in response to the Restriction Requirement of May 3, 2004

Please enter the following claims:

1. (original) A composition for use in anti-angiogenic or angiogenic therapy comprising: a) an angiostatin agonist, partial agonist, inverse agonist, antagonist and/or angiostatin allosteric modulator, and b) a suitable carrier.

2. (original) The composition of claim 1, wherein the angiostatin agonist, partial agonist, inverse agonist, antagonist and/or angiostatin allosteric modulator are selected from the group consisting of antibodies, antibody fragments, enzymes, peptides and oligonucleotides.

3. (original) The composition of claim 1, wherein the angiostatin agonist, angiostatin partial agonist, inverse agonist and/or angiostatin allosteric modulator is a conjugate of an anti-tumor agent that does not bind to the alpha or beta subunits of F1 ATP synthase and a compound that does bind to the alpha or beta subunits of F1 ATP synthase.
